

Degree Transfer Curriculum

Students must study and pass a total of five courses each semester. This includes Language for Study which focuses on improving students academic English, plus four courses relevant to the students' selected degree destination. Students will be provided with the support they need and assessed in line with University standards as they complete the first year University program at the College.

The table below shows the likely courses that students will have to complete before moving in to the second year of their chosen bachelor degree.

The University of Adelaide College provides guidance on the necessary 'study plan' and destination degree.

Language for Study, the Academic English course offered by the College, is skills-focused and aims to assist students with developing their academic writing, speaking, listening and reading skills, in addition to increasing confidence in tutorials and improving note taking and referencing skills.

The University of Adelaide		The University of Adelaide College			
Discipline	Intakes	Bridging Semester (DTE only)	Degree Transfer Subjects (Semester 1 & 2) Students must complete four subjects plus English each semester		Bachelor Degree Destinations (Second year entry)
Faculty of Engineering, Computer and Mathematical Sciences					
Computer Science	DTE Mar, Oct DTS Feb, Jul	Programming Core Maths Engineering Maths Statistics Academic English	- Introduction to Programming - Maths 1A - Puzzle Based Learning - Scientific Computing - Language for Study	- Statistical Practice - Introduction to Software Engineering - Maths for Information Technology 1 - Object Oriented Programming - Language for Study	B Computer Science
Engineering	DTE Mar, Oct DTS Feb, Jul	Computing or Programming Core Maths Engineering Maths Physics Academic English	- Maths 1A - Physics 1A - Chemistry 1A - Biology 1: Molecules Genes and Cells - Broadening Elective - Analog Electronics - Introduction to Process Engineering - Introduction to Petroleum Engineering and the Oil Industry - Engineering Mechanics - Statics - Geology for Engineers - Engineering Planning and Design 1A - Introduction to Mechanical Engineering - Introduction to Mechatronic Engineering - Introduction to Aerospace Engineering - Introduction to Programming for Engineers - Introduction to Sports Engineering - Introduction to Sustainable Energy Engineering - Language for Study Note: Course choices are dependent on which Bachelor Destination is chosen	- Maths 1B - Physics 1E - Chemistry 1B - Biology 1: Human Perspectives - Professional Practice 1 - Digital Electronics - Civil and Environmental Engineering 1A - Engineering Modelling and Analysis 1A - Engineering Mechanics - Dynamics - Materials 1 - Introduction to Mining Engineering - Introduction to Process Modelling - Introduction to Petroleum Engineering - Design Graphics and Professional Practice - Object Oriented Programming - Web and Database Computing - Language for Study Note: Course choices are dependent on which Bachelor Destination is chosen	B Engineering (Honours) Civil and Structural Chemical Chemical - Minerals Processing Chemical - Sustainable Energy Chemical and Pharmaceutical Electrical and Electronic Mechanical Mechanical and Aerospace Mechanical and Sports Mechanical and Sustainable Energy Mechatronic Mining Petroleum Software
Faculty of Health Sciences					
Health Sciences	DTE Mar, Oct DTS Feb, Jul	Biology Chemistry Computing Core Maths Academic English	- Chemistry 1A - Create, Communicate, Connect with Health Sciences - Health and Illness in Populations - Human Biology 1A - Language for Study	- Chemistry 1B - Human Biology 1B - Saving Lives or Respecting Rights? An Introduction to Health Ethics - Statistical Practice 1 - Language for Study	B Health and Medical Sciences Note: Chemistry at Year 12 level or equivalent, is a prerequisite

Science	DTE Mar, Oct DTS Feb, Jul	Biology Chemistry Core Maths Computing Academic English	- Chemistry 1A - Biology 1: Molecules, Genes and Cells - Physics: Physical Aspects of Nature - Earth Systems - Language for Study Note: Course choices are dependent on which Bachelor Destination is chosen	- Chemistry 1B - Biology 1: Human Perspectives - Statistical Practice 1 - Earth's Interior - Language for Study Note: Course choices are dependent on which Bachelor destination is chosen	B Science Note: Chemistry at Year 12 level or equivalent, is a prerequisite

Access to DT courses may vary depending on time of intake and bachelor degree choice. Courses offered by the University of Adelaide College may change based on the University of Adelaide requirements. The Degree Transfer (Health and Medical Sciences) pathway also provides students with the option to apply for entry into first year of the Bachelor of Nursing degree upon completion of the Degree Transfer program (DT). For Bachelor of Nursing, strict quotas apply. The standard cut-off is the minimum academic threshold, above which, applications will be ranked on merit. In addition to academic performance, other selection criteria may affect merit ranking. See college.adelaide.edu.au/degree-transfer for more information regarding intakes and course availability.
