Progression to the University of Adelaide

Bridging Semester of Pre-Master's Program

Students will need to achieve an overall pass in the Bridging Semester and a pass in Academic English A and of the Pre-Master's Program to be considered for progression to the University Semester of the Pre-Master's Program. To achieve a pass grade, students must score 50% or better. Students can progress to the University Semester of the Pre-Master's Program if the above and at least one of the following requirements are achieved during the Bridging Semester:

- A pass in all of the courses in the Pre-Master's Program, or
- A pass in four courses (with one of these courses being Academic English A), or
- A pass in three courses (with one of these courses being Academic English A), a result of more than 45% in the fourth (4th) course and a result of more than 40% in the fifth (5th) course.

Students who do not fulfil the above requirements will only progress to the University Semester of the Pre-Master's Program on a case-by-case basis and with special permission from the College.

Students who are enrolled in the Health Sciences and Arts destinations in the October intake and do not fulfil the above requirements, will not be able to re-start the program in the subsequent Bridging Semester in the March intake and may be required to return to their home countries. This is due to Health Sciences and Arts destinations being offered only in Semester 1 of the academic year by the University.

University Semester of Pre-Master's Program

Students will need to achieve a pass (50% or more) in all four University-selected courses, as well as a pass in Academic English B, to progress to the chosen Master's Degree at the University.

Students who do not fulfil the requirements to progress to the Master's Degree at the University (that is, students who fail in one or more courses in the University semester of the Pre-Master's Program) will only progress to the Master's Degree at the discretion of the appropriate school or faculty.

Students who do not fulfil the requirements to progress to the Master's Degree at the University on first attempt will have the opportunity to repeat those courses they did not pass.
